Cerec users and experts in digital clinical applications participate in the 25th DGCZ “family meeting”, a unique type of anniversary conference. The top lecturers from Austria, Canada, France, Italy, Netherlands, Switzerland and the USA present together with German experts the current state of the art in various CEREC related aspects. Technical updates and clinical expertise, scientific findings and practical tips, tricks from the experienced practitioner and workshops, hands on exercises and live-treatments... what a programme !

You have to come!

Join us and celebrate our 25th Cerec Master Course
